Lucibulū noctis vexillū sum humectantis
Solem quia sequor solis pedissequa dicta
Altus michi situs locus status septentrionis
In cancro sola gradior regradior ipa
Angelicus color albus lucendo lucet
Nam puerile decus michi famulando mīstrat

Octo bis decem cōsurgit luna diebus
Luna donat natū fronte nigrū coloratū
In vultu rubeum iustū castū vagabundū
Longus est et pinguis fronte longos habet crines
Atq nigros oculos habet et ore bene cantat

Oculus luna mdi luna pedissequa solis
Splendor decor noctis luna fex supiorū
Aurū alteratrix infimus sistit planetarū
Decus puerile lux uagans sydus nocturnū
Estq pmutatrix restauratrix reparatrix
Atq noctis dna lucibulū estq nocturnū
Quod in visibilia cacodemonia lustrat
Singula degenerans nnon de gnata fastides
