loquentia [illegible], Modestius est de dei operibus sanctis loqui et parum
est pericuosum et nitum de illis disputare, dum et nos abundantes
semper sui divina manifestare presumis sine longo [illegible] ordine
ac [illegible] [illegible] [illegible] est multis [illegible] [illegible] [illegible] quin aut [illegible]
[illegible] Parum refert si nihil disputantes se mortalis de secre-
tis divinis dei consulat, adhuc eum a [illegible] nitum [illegible] [illegible]
[illegible], Hinc tempus quin homo [illegible] aure [illegible] [illegible]
[illegible] [illegible] [illegible] quo dei [illegible] in abscondito est
Bravium ergo sibi proponit homo [illegible] sui [illegible] aperta
est sibi hominis discrepandi modulo [illegible] quidem [illegible] [illegible]
tempus, quod [illegible] est, [illegible] [illegible] quod [illegible]
[illegible] abiit, Cum [illegible] homo quiso [illegible] [illegible], et in dies
[illegible] [illegible] ad [illegible] a deo iudicio in nonissimo sibi dei
[illegible], set responsurus Hic labor, hor opus, Ecce hic est vite
[illegible] [illegible] [illegible] ad exequendum, quod [illegible] [illegible] [illegible]
est exequi, Laborat homo et proponit sibi vitam, [illegible] opus
[illegible] [illegible] [illegible] intelligi, de [illegible] [illegible] dei [illegible]
parum disputat, sed omnia in dem autem sum prius [illegible] [illegible]

Quid plus hominis quam quod nostur ad hoc bonum in vita

Caput Septimum

Hunc [illegible] [illegible] [illegible] [illegible] [illegible] quin nos addimus

parcus, satietatis nihil, minime quinquid in illis est id [illegible] [illegible]

prospice quiso his melius, quia [illegible] [illegible] [illegible] omni
ex parte sunt addiscere, Principio est bonum atque prius est hoc, quin
de anima plus solemus vivit [illegible] de corpore, qui et sui [illegible]
[illegible] nobile, virtutes insignes, nunc vero dignum relinquere,
Proinde quin forma [illegible] [illegible] corpus, nec oleo (quod Hebraice
quod magnum est,) Mud [illegible] Id plane tum [illegible] quinquid corpori

bus [illegible] de oleo habebit [illegible]. Si aut [illegible] [illegible] [illegible] viz,

ce multis in [illegible] [illegible] est, [illegible] [illegible] [illegible] exem-
plum sit [illegible] et [illegible], Objice et [illegible] [illegible] [illegible]
