Solamē mestu nunc mea fata senis
Venit enim propata malis iopia senecē
Et dolor etatē ussit in esse suam.
Intempestum fundūt uertice cam.
Extremit efeto corpore lara cutis.
Mors hominū felix q̄ se nō dulcib; ām
Inserit. et mestis sepe uocata uenit.
Vocāt heu ḡ surda miscros aurā aure.
Et flentes oculos claudere sena negat
Dum leuib; male fida bois fortuna fauet
Pene caput ēstus meuerit hora meum.
Nunc qa fallacē mutauit nubila uultū
Protrahit ingratas impia uita moras.
