In qua quisq; vitem ꝓpetans habet
In qua tu ꝓa res e ul publica morte
Nulla magis ꝓa publica nulla magis
Ergo quid hic facio n̄ q; deseruio mido
Spes m̄ cras dicet en surge veni
Nil igit̄ superest nisi tantū religiom
Ne conferre pcul sit ptor ergo mora

Compunctio Brunelli

Sed quia duīse sunt spēs religiomꝰ
Nescio ꝙpne que sit habenda m̄
Si crute signatus rubea me conferet tempa
Trans mare me mittent solue vota deo
Seruus ero seruū facient pcul ē sedes tu
Seruet et forsan i regione tyri
Non tamē ibo pedes h̄ equo q; passus auena
Crassus et ad tales sit tener atq; leuis
Cuiꝰq; pedem suaue et fractus gressibꝰ erranꝰ
Mollitet medat regula mā dabit
Scandē testamē prohibet quoq; regula nolo
Vt ꝙ me tarcat ordo rigore suo
Ingrediar miles ne candida pallia desint
Sed tūc ad bellū nō reduturus eo
De tuce corrigia mea ꝑdamus hebit
Et comedet carnes bestia sua meas
Intrum casus gladius mea vestera sundet
De tracto torco cetera tradet humo

Sententia Brunelli de diuisis religiombꝰ

Dersum si fuero tenuis hospitalarius ille
